REACH Declaration

Declaration according to the regulation EC 1907/2006 concerning the Registration, Evaluation, Authorisation and restriction of Chemicals (REACH)

The REACH rules will be implemented step by step until year 2018

ASMETEC does neither manufacture nor import or sell chemicals. We develop, design and deal with non-chemical technical products only.

According to REACH ASMETEC is only concerned as a so-called “downstream user”. Since we are neither manufacturing nor creating substances or chemicals we are not obliged to register or pre-register any of our products.

According to article 3 (Definitions) of the regulation the products we supply to you are considered non-chemical products (“goods”).

The products supplied are *articles* and do neither intentionally release any substances during the intended use nor contain any SVHC (substances of very high concern).

Since our products do neither intentionally release any substances during the intended use nor contain any SVHC (substances of very high concern) Article 7 of the regulation does not apply to any of our products.

As a downstream user we will continue to comply all requirements arising from REACH that apply to our products.

As to REACH Article 33 – duty to communicate information of substances in articles there are no SVHC (substances of very high concern) present on our products. This applies to the SVHC included in the candidate list as published on 2008-10-28 in a concentration above 0,1% weight by weight of the product.

Based on our today’s knowledge and based on the information provided by our suppliers non of our products does contain any SVHC products.

If necessary we will inform you about relevant changes of our products induced by REACH and the deliverability as well as the quality of our products or parts thereof, which are delivered to you on the basis of business relationship. If deemed necessary we will coordinate appropriate measures.
